

Moving Ground

Hibria

Every time I feel my life is changing I'm afraid
Open my eyes and face the game
Here we pay the price for who we wanna be
Get ready now one more day we'll fight

Every time you try to blame yourself in all your ways
No, you don't need it, run away!

Moving ground - believe in your path
Moving ground - dispose all the past
Moving ground - just do all your best
Hey, life is a moving ground

Every time I feel my mind is turning I'm afraid
Close my heart one more day
Till we hit the ground there is nothing else to say
Get ready now one more day we'll fight

Every time you try to blame yourself in all your ways
No, you don't need it, run away!

Moving ground - believe in your path
Moving ground - dispose all the past
Moving ground - just do all your best
Hey, life is a moving ground

Inner voices in my head, voices in my head

Moving ground - believe in your path
Moving ground - dispose all the past
Moving ground - just do all your best
Hey, don't blame yourself for the moving ground
