

## Pain

Hibria

Father, I beg, please forgive me, but I have sinned  
The Butcher is coming to take you, he is known as me  
For putting a knife in your back  
The demons should take me down  
I'm willing for absolution, set me free!

Unholy God guides my destiny  
How can you fight, while you're down on your knees?

Feel my pain (looking to kill once again)  
Feel my pain (sorry for all I have sinned)

Father, I beg, please forgive me  
Feel the anger, I'll you once, kill you twice  
It fills all my heart  
Make me feel better  
Please, just tell me the words

The circle may never end  
The nightmare is on me  
I'll save a prayer for all of you  
I'll rape your soul, and steal your innocent lives
