

Safe Shore

Hibria

Things will always be the same if sometimes you don't take a risk
Life won't move alone, it depends on actions
Got to believe there is a chance to show 'em there's nothing to be afraid
So dry your tears! You were born a winner

Hey! The walls that exist
Hey! They're inside your mind
Now are you afraid to face them?
Hey! Look around yourself
Hey! There's some blackout signs
Do you only see what suits in you?

And you know there'll be some voices
Laughing in your head
Are your big dreams dead?
Is your real lifetime seeking a safe shore?

Things will always be the same if sometimes you don't take a risk
So dry your tears! You were born a winner

Hey! The walls that exist
Hey! They're inside your mind
Now are you afraid to face them?
Hey! Look around yourself
Hey! There's some blackout signs
Do you only see what suits in you?

And you know there'll be some voices
Laughing in your head
Are your big dreams dead?
Is your real lifetime... (Real lifetime)

Hey! The walls that exist
Hey! They're inside your mind
Now are you afraid to face them?
Hey! Look around yourself
Hey! There's some blackout signs
You held so many secrets. Damn!
There's no more time to be stuck
Under the ground you fucked up
And you know there will be
Some voices laughing
Search a safe shore
