

Scream and Shout

Hibria

I wanna scream and shout
I've never wanted to chill out and live this way
I wanna scream and shout
All I ever wanted now starts to fade
Grabbin' my guitar once again
We should play the chorus again
I wanna scream and shout
Let me get up on that stage once again

It is my time to rise and shine
Forget the past and play it right
Filled with poison
No one could see, but I am still here

I couldn't say I'm feelin' better
I couldn't say I'm feelin' bad
I always thought I was a rocker
I should be playing with the band
(Oh come on baby! Give me some love!)

I wanna scream and shout
I've never wanted to chill out and live this way
I wanna scream and shout
Let me get up on that stage once again

It is my time to rise and shine
Forget the past and play it right
Filled with poison
No one could see, but I am still here

I couldn't say I'm feelin' better
I couldn't say I'm feelin' bad
I always thought I was a rocker
I should be playing with the band

Am I fuckin' crazy?

It is my time to rise and shine
Forget the past and play it right
Filled with poison
No one could see, but I am still here

I couldn't say I'm feelin' better
I couldn't say I'm feelin' bad
I always thought I was a rocker
I should be playing with the band
I should be playing with the band
I should be playing with the band

(Oh come on honey!
Should be playing with the band!)
