So Damn Unkind

Hibria

You lied - Sure it will hurt me
What is real? - Say why you fake
Stole my bliss arid tried to please
Truth time arid it has broken me
Spoiled my drink and so my dreams
Maybe I'll be fighting all alone

A brand new life holds all my dreams - New stories in my head
How many others had to lose a dream to raise it again?
I am learning I can feel it in the air

I sure have learned love is the price, the deal
And love is to share cause we all belong here
So damn unkind

I cried - Your lies tore me apart
Are you real? Say why you fake
Stole my bliss arid tried to please
Truth time arid it has broken me
Spoiled my drink and so my dreams
Maybe I'll be fighting all alone

A brand new life holds all my dreams - New stories in my head
How many others had to lose a dream to raise it again?
I am learning I can feel it in the air

I sure have learned love is the price, the deal
And love is to share cause we all belong here
So damn unkind

I've been riding out this endless road
I've been fighting down this unsocial world
Not a dream is to be left behind
Life has never been so damn unkind
