### Hidden in Plain View

and i was on the verge  
of pulling back these words  
and missing you tonight

but you come to far don't dare to resist  
i'm coming clean  
and feeling emptiness

can we say goodbye  
and spare me restless sleepless nights  
can we say goodnight  
so we can sleep sound tonight

and the respirators pumping slow  
and you're still here  
breathing down my throat  
just let it go

because it's plastered on my barren face  
all the words i can't bear to say  
that i just cant bear to say

can we say goodbye  
and spare me restless sleepless nights  
can we say goodnight  
so we can sleep sound tonight

and on my way back home i try to find myself again  
these cigarettes will burn  
and so will my eyes  
i have no place to go

i'm just making my way far from you

can we say goodbye  
and spare me restless sleepless nights  
can we say goodnight  
so we can sleep sound tonight

sleep sound tonight  
sleep sound tonight  
can we say goodbye  
so we can sleep sound tonight
