

Traffic Jams And Train Cars

Hidden in Plain View

It's tuesday morning and there is nothing I'd rather do
Traffic Jams and Train Cars just to get to you
maybe we would walk around
just showing me your home town
even if we did nothing.....its anything.....
And everythings alright
when your with me tonight
Everything alright
cause your with me tonight
Sunday morning Im still lying next to you
couldnt say goodbye now the sunrise
is coming up soon
my stomach is hurting now
cause Im hungry for you now
Even if we did nothing.....its everything
And everythings alright
when your with me tonight
Everything alright
cause your with me tonight
I've been with you all day and
New York City never felt this safe
Lie with me through this night
I never sleep but I dream.....I said its like
"its hard to say what you mean to me".....
cause I cant show everything.....
and I cant do anything.....
but with you.....you change it all.....
I can let it go, I just let it go
when Im with you, I breath with you
and we both know thatnothings in our way.....
cause my own heart will lead the way.....
