

Ocean to City

High Highs

Go lonely
I'll reach out
And make it known that I miss you
And like an actor
Kissed in a picture
I'll take
The bitter heart
It's like a curse that can't be lifted
Later the evening
Spreads out against
Against the sky

Stay with me
Ocean to city
If there's a world
I feel if I can see so clearly
There is a love
If you let it go [x5]

Lonely in
The simple life
I say so with a heavy heart
So slide in the anything
Running for miles
To see it clear

Stay with me
Ocean to city
If there's a world
I feel if I can see so clearly
There is a love
If you let it go [x9]

Stay with me
Ocean to city
If there's a world
I feel if I can see so clearly
There is a love
