

Do This Life

High Valley

I had a dream the other night
That right was wrong and wrong was right
And nothing was the way it's meant to be
I couldn't find you anywhere
Yeah, I was lost, I said a prayer
Just hoping God would bring you back to me
Yeah, I saw you with my eyes closed, how?
That's a road I never wanna go down

'Cause that world don't turn
That sun don't burn
No, nothing works
Yeah, girl, without you
That band don't play
There ain't no way
Not one day, one night
I can't do this life without you

Clocks don't tick and time unwinds
Songs don't sing and words don't rhyme
If you ain't there to hold, it don't make sense
I'd be a rambling man without a home
Looking for you everywhere I go

'Cause that world don't turn
That sun don't burn
No, nothing works
Yeah, girl, without you
That band don't play
There ain't no way
Not one day, one night
I can't do this life without you
I can't do this life
I can't do this life without you

I know every breath I breathe, yeah
This heart, every beat is for you
Right now and all the time I need ya
Need ya

'Cause that world don't turn
That sun don't burn
No, nothing works
Yeah, girl, without you
That band don't play
There ain't no way
Not one day, one night
I can't do this life without you
I can't do this life
I can't do this life without you
I can't do this life
I can't do this life without you
