

Don't Stop

High Valley

You're gonna break some hearts
You're gonna get yours broke
You think you'll stay forever
But some day you won't
When I'm here to tell you
Even when I'm not
Whatever you do, don't stop

When you finally find
What you believe
Don't try to fight it
Let it set you free
Blood, sweat and tears
Down to your last drop
Whatever you do, don't stop
Whatever you do, don't stop

Dream it, even if it don't come true
Being who you are
There's only one of you
When holding on to heaven
Is all you got
Whatever you do, don't stop

Love it, while you got it
Right here, right now
Never let the haters
Drag you down

You're nobody's shadow
Go cast your own
You can put down roots
Or be a rolling stone
I've got your back
You wanna take your shot
Whatever you do, don't stop
Whatever you do, don't stop

Dream it, even if it don't come true
Being who you are
There's only one of you
When holding on to heaven
Is all you got
Whatever you do, don't stop

Love it, while you got it
Right here, right now
Never let the haters
Drag you down

You're a trail blazer
Game changer
World's gonna know it now
Sooner or later
If I hadn't told ya
I'm lucky to know ya

Don't stop dreaming
Even if it don't come true
Being who you are
There's only one of you
When holding on to heaven
Is all you got
Whatever you do, don't stop

Dream it, even if it don't come true
Being who you are
There's only one of you
When holding on to heaven
Is all you got
Whatever you do, don't stop
