

Every Week's Got A Friday

High Valley

Every town's got a main street
Every soul's got a heartbeat
Every kid's got a wild dream
So chase it til it comes true
Every day's got a sunrise
Every first kiss got butterflies
Every life's got a moment
That you never forget
Baby this could be it

Every week's got a Friday
Here's to running wild
Like a wild child
Burning down a highway
Here's to living it up and letting it go
Everybody let the music play
Feel it ricochet, rock the night away
Every week's got a Friday
Every week's got a Friday

Everybody's got a 9 to 5
Everybody's got to get by
And everytime I see you
You take me to a good time
Every truck's got 4 wheels
Every farm's got a wheat field
Every county's got a dirt road humming by the riverbank running
Yeah tonight we're coming alive

Every week's got a Friday
Here's to running wild
Like a wild child
Burning down a highway
Here's to living it up and letting it go
Everybody let the music play
Feel it ricochet, rock the night away
Every week's got a Friday
Every week's got a Friday

Every town's got a main street
Every soul's got a heartbeat

Every week's got a Friday
Here's to running wild
Like a wild child
Burning down a highway
Here's to living it up and letting it go
Everybody let the music play
Feel it ricochet, rock the night away
Every week's got a Friday
Every week's got a Friday

Friday burnin' down the highway
Let the music play rock the night away
Friday burnin' down the highway
Let the music play rock the night away
Friday burnin' down the highway

Let the music play rock the night away
