

Never Not

High Valley

Your silhouette's burned into the back of my mind
Bet ya I could paint it blind
Folded, yeah, I know it
Better than I know my own

Yeah, I forget the last time that I had a dream
Where you weren't right next to me
Dancing, holding my heart ransom
Stealing every breath I breathe

'Cause I'm never not, never not
Every minute, you're my first and my last thought
Gonna love you till this ol' spinning world stops
Yeah, the truth is if you're wondering when I'm thinking 'bout
you
I'm never not, never not

It's a crowded room, but, baby, I still feel all alone
And I had to hear your voice on the phone
Callin', I'll be home in the mornin'
But right now I just need you to know

I'm never not, never not (Thinking of you)
Every minute, you're my first and my last thought (All about yo
u)
Gonna love you till this ol' spinning world stops
Yeah, the truth is if you're wondering when I'm thinking 'bout
you
I'm never not, never not
Never not, no, I'm never not
Wanting to hold you, needing to show you
Baby, I'm always falling for you

I'm never not, never not
Never not, no, I'm never not

Never not, never not (Thinking of you)
Every minute, you're my first and my last thought (All about yo
u)
Gonna love you till this ol' spinning world stops
Yeah, the truth is if you're wondering when I'm thinking 'bout
you
I'm never not, never not
Never not, no, I'm never not
(Never not, never not)
And if you're wondering when I'm thinking 'bout you
I'm never not
