

Rescue You

High Valley

I wanna be your knight in shining armor
Wake you up with a long slow kiss
Wanna guard your heart, I wanna keep you warm
I wanna feel you wrapped up in my arms
I wanna rescue...

You from every dark night
You from every tear cried
Save you from a world so cruel
I wanna rescue
You from being lonely
Lay your worries on me
Show you what love can do
I wanna rescue you

So if you're ever feeling lost, I'll find you
Won't leave a stone unturned
I'd weather flames and pouring rain,
Shake the skies calling out your name
I wanna rescue...

You from every dark night
You from every tear cried
Save you from a world so cruel
I wanna rescue
You from being lonely
Lay your worries on me
I'll show you what love can do
I wanna rescue

You'll never be lonely
Baby, lay it all on me
Say goodbye to the dark nights
I wanna watch you shine like the star that I know you are
Let me show you, show you, girl
I wanna rescue...

You from every dark night
You from every tear cried

I wanna rescue...
You from every dark night
You from every tear cried
Save you from a world so cruel
I wanna rescue
You from being lonely
Lay your worries on me
Show you what love can do
I wanna rescue you
Girl, I wanna rescue you

I wanna be your knight in shining armor
Wake you up with a long slow kiss
