

# She Loves

## High Valley

I'm a good-timer  
A little two-lane small-town trouble-finder  
A just a little off the beaten path nine-to-fiver  
That weekend rolls around, I'm an up-all-nighter  
This old boy gets down like that

Me and these old boots get a little off track  
She keeps holding on and always brings me back

She loves the fire out of me  
She loves my wild-and-free  
She sees the good through the bad  
Don't know how she does that  
She loves my small-town side  
Those old back roads we ride  
I'm falling more every day  
I love the way she loves

She's so classic  
She's a can't-quit kinda good kind of habit  
Yeah, I want a little more of that  
She's a one-in-a-million girl  
Gotta have her in my world  
She saves me from myself  
Gets to me like no one else

She loves the fire out of me  
She loves my wild-and-free  
She sees the good through the bad  
Don't know how she does that  
She loves my small-town side  
Those old back roads we ride  
I'm falling more every day  
I love the way she loves

Me and these old boots get a little off track  
She keeps holding on and always brings me back

She loves the fire out of me  
She loves my wild-and-free  
She sees the good through the bad  
Don't know how she does that  
She loves my small-town side  
Those old back roads we ride  
I'm falling more every day  
I love the way she loves  
She loves the fire out of me  
She loves my wild-and-free  
She sees the good through the bad  
Don't know how she does that  
She loves my small-town side  
Those old back roads we ride  
I'm falling more every day  
I love the way she loves

She's a one-in-a-million girl  
Gotta have her in my world

She saves me from myself  
I love the way she loves  
She's a one-in-a-million girl  
Gotta have her in my world  
She saves me from myself  
I love the way she loves
