

Single Man

High Valley

Well, single man
Goes wild and crazy on a Tuesday night
Stays out till 2 a.m. and don't think twice
Burns through money and his pick-up lines

And a single man
Is always down to grab a two-for-one
Makes a plan, ain't gotta ask no one
He can wake up anywhere he wants

But I don't know a single man
Who'd pick a keg of whisky over your kiss
Take a neon night over a night like this
Stay young forever over growing old with you

I don't know a single man
That ain't out looking for what I've got
That wouldn't die to be where I am
Nah, I don't know, no, I don't know a single man

Yeah, a single man
Don't get to wake up looking at your smile
Ain't late to work from kissing you goodbye
Don't get to hold you tight every single night

Girl, I don't know a single man
Who'd pick a keg of whisky over your kiss
Take a neon night over a night like this
Stay young forever over growing old with you

I don't know a single man
That ain't out looking for what I've got
That wouldn't die to be where I am
Nah, I don't know, no, I don't know a single man

Every single time you walk in a room
Every single guy's got their eyes on you

Girl, I don't know a single man
Who'd pick a keg of whisky over your kiss
Take a neon night over a night like this
Stay young forever over growing old with you

I don't know a single man
That ain't out looking for what I've got
That wouldn't die to be where I am
Nah, I don't know, no, I don't know a single man
That ain't out looking for what I've got
That wouldn't die to be where I am
Nah, I don't know, no, I don't know a single man

Nah, I don't know a single man
No, I don't know a single man
