

Way Back

High Valley

Way back in them blue jean days
Back when summer was forever and forever was a day, wait
Way back in the backseat nights
Shot of heaven shinin' down on the shotgun side, yeah

Way back, way back like a no name road
That everybody knows
Way back, way back where the wild things grow
Tonight I wanna go

Way back
Put a little summer on the soundtrack
Meet me in the middle of a throwback, go on back
Hit me with it, kiss me to the rhythm of a Tennessee train track
And if you did you know I wouldn't hate that
You know I love it when you say that
I wanna go way way back
(Way back)

Way back tracing hatchback hearts
In the dust on the back of your Dodge in the dark
Way back chasing first time feels
One headlight playing, one hand on the wheel

Way back, way back, take the long way home
Tonight I wanna go

Way back
Put a little summer on the soundtrack
Meet me in the middle of a throwback, go on back
Hit me with it, kiss me to the rhythm of a Tennessee train track
And if you did you know I wouldn't hate that
You know I love it when you say that
I wanna go way way back

Way back
Put a little summer on the soundtrack
Meet me in the middle of a throwback, go on back
Hit me with it, kiss me to the rhythm of a Tennessee train track
And if you did you know I wouldn't hate that
You know I love it when you say that (Say that)
I wanna go way way back
