

Whatever It Takes

High Valley

Take my heart tonight
Still be yours in the morning light
Hey, babe what do you say
Give this love whatever it takes

I can watch you name the stars for hours
Tracing shapes in heaven with your hand
And if you like this clover field of flowers
I put all I got down to buy the land

Swing a hammer
Climb the ladder
Come on darling it don't matter
Baby, I'd do anything for you

Take my heart tonight
Still be yours in the morning light
Take your sweet ol' time
I can wait forever or whatever you like
Take this long shot
It's all we got
Hey, babe what do you say
Give this love whatever it takes

If this fire I'm feeling is any indications
Then we're about to burn out of control
This ain't no temporary love in the making
I can't wait to find out where it goes

Take my heart tonight
Still be yours in the morning light
Take your sweet ol' time
I can wait forever or whatever you like
Take this long shot
It's all we got
Hey, babe what do you say
Give this love whatever it takes

Take this road wherever it takes
Take my nights, take my days
Take my take, my breath away
Give this love whatever it takes

Take my heart tonight
Still be yours in the morning light
Take your sweet ol' time
I can wait forever or whatever you like
Take this long shot
It's all we got
Hey, babe what do you say
Give this love whatever it takes
Give this love whatever it takes
