

## Blood Moon

High Vis

The sun is black behind her eyes  
She needs me standing hypnotized  
The cracks are forming in the sky  
The sun and stars begin to die  
Blood moon  
Blood moon  
Blood moon  
Blood moon  
The sun is black behind her eyes  
She needs me standing hypnotized  
The cracks are forming in the sky  
The sun and stars begin to die  
Blood moon  
Blood moon  
Blood moon  
Blood moon  
The cracks are forming in the sky  
The sun and stars  
The sun and stars begin to die
