

Drop Me Out

High Vis

A cloud of dust and you're running away
You set the sensors off anyway
I've never seen you stand side by side
You're shook and hopeless
You never tried
Weaponised abandonment
There's no loyalty in arrogance
I won't be a passenger
Only useful when it suits ya

Drop me out, I'll walk from here
Your logic turned to selfish fear
I'm clawing back the wasted years

If you think you've got me
In your pocket
Threatening like you could stop it
We're meant to be in this together
Off you fuck
These ties are severed
Risking freedom without trust
Well, this could be the end of us
Picking up the pieces
Thinking selfishly
I'll walk alone 'til the death of me

Drop me out, I'll walk from here
Your logic turned to selfish fear
I'm clawing back the wasted years

Is it easy to live with nothing to lose?
The only ones left are the ones I choose
Linking up
For an R.I.P.
Faded names
Are our history
I've seen enough to walk away
Nights haunted by these memories
I know the truth
It dies with me
I know the truth

Can't pick your mates
Or your co-defendants
Time served
On this life sentence
I don't play and I'll never lose
Ride or die
It's death for you

Drop me out, I'll walk from here
Your logic turned to selfish fear
I'm clawing back the wasted years
