

Feeling Bless

High Vis

There is no other way
Luck or fate
We're still here today
Creeping off into the night
Killing dreams by Clipper light

Are you feeling bless?
Are you feeling bless?

The meter's on so don't be long
Wash it up, it's twice as strong
Metallic smoke and sleepless dreams
Your world, it just ain't what it seems

I've been waiting for you
Because I want the same things too

Are you feeling bless?
Are you feeling bless?

Are you feeling bless?
Are you feeling bless?
Are you feeling bless?
Are you feeling bless?
