

# Gone Forever

High Vis

Are you safe inside your cell?  
Give 'em just enough rope  
And they'll hang themselves  
Staring right at the Sun  
Thinking what have we done?  
Your facts, your facts  
Aren't fooling everyone

Villainised and despised  
See the world through tainted eyes  
We know the stories that you wouldn't tell  
The lies and the slander that you're dying to sell  
Trying to shot me a living hell  
You can't shot me a living hell

I don't know what to believe in  
But it can't be this  
When you're gone, you're gone forever  
When you're gone, you're gone forever  
When you're gone, you're gone forever  
You won't be fucking missed

Prepared for peace and ready for war  
Take what you need if you can take anymore  
Pacifism is a privilege  
Pacifism is a privilege  
What do you do when you can't take anymore?

Villainised and despised  
See the world through tainted eyes  
We know the stories that you wouldn't tell  
The lies and the slander that you're dying to sell  
Trying to shot me a living hell  
You can't shot me a living hell

I don't know what to believe in  
But it can't be this  
When you're gone, you're gone forever  
When you're gone, you're gone forever  
When you're gone, you're gone forever  
You won't be fucking missed

When you're gone, you're gone forever  
When you're gone, you're gone forever  
When you're gone, you're gone forever  
You won't be fucking missed  
When you're gone, you're gone forever  
When you're gone, you're gone forever  
When you're gone, you're gone forever  
When you're gone, you're gone forever  
When you're gone, you're gone forever  
When you're gone, you're gone forever  
When you're gone, you're gone forever  
You won't be fucking missed
