

Welcome to the desert of the real  
The wasteland of the teeth  
The ruins of all reasons  
The taste of misery

And you spin right round, right round in my head  
You spin right round, right round in my head  
You spin right round, right round in my  
You spin right round, right round  
You spin right round, right round  
You spin right round

Welcome to the desert of the real  
The wasteland of the teeth  
The ruins of all reasons  
The taste of misery

You spin right round, right round in my head  
You spin right round, right round in my head  
You spin right round, right round in my  
You spin right round, right round  
You spin right round, right round  
You spin right round

You spin right round, right round  
You spin right round, right round  
You spin right round, right round  
You spin right round
