

Shame

High Vis

Take it all in
Just be careful who you are
Take it all in
They're trying to work out who you are
And while you were making up your mind
I was disconnecting mine
Disconnecting mine

Disconnect your mind
Time and time again

You know me
At least you think you do
You only know the me
That I've let you into

So take it all in
Just be careful who you are
Take it all in
They're trying to work out who you are
And while you were making up your mind
I was disconnecting mine
Disconnecting mine

Disconnect your mind
Drive away the shame

Although you don't belong here
You're exactly where you need to be

You know me
At least you think you do
You only know the me
That I've let you into
