

Never Been Less Loved

Highasakite

Don't why you bleed
I don't how it feels
I don't know what it means
I'm cold as any fish
Throw me back in the sea

'Cause it's all over now
Yeah, it's all over now
And I've never been less loved
It's all over now
Yeah, it's all over now
And I've never been less loved

Don't what it says
I don't know how to leave
Your every heartbeat
I'm not a real woman
I don't know how to be human

And it's all over now
Yeah, it's all over now
And I've never been less loved
It's all over now
Yeah, it's all over now
And I've never been less loved

It's all over now
Yeah, it's all over now
And I've never been less loved
It's all over now
Yeah, it's all over now
And I've never been less loved

Don't why I bleed
I don't how it means
I don't know how I feel
I don't know what it means
