

Under the same sky

Highasakite

Some other time
Some other day
Some other year
Some other life

Some other time
Some other day
Some other year
Some other life

And if I am not on your mind
Then at least we're under the same sky
At least we're under the same sky
At least we're under the same sky
At least we're under the same sky

And now you're just a stranger with all my secrets
And now you're just a stranger with all my secrets
