Walking on the red carpet shining like a motherfucker  
A kid with an afro and a katana in hand, blood and cherry blossoms all over  
The dark warrior wreaks havoc under the moonlight  
The solitary soldier flies through the tests, villains pay the price  
No need to be scared when you touch my sword, I'm number one

Bitch don't kill my dab  
I can feel your energy like a lion or tiger  
Bitch don't kill my vibe  
Bitch don't kill my dab  
An animal in human clothing, be civilized don't spit  
MaSiWei and I play Xbox

Don't ask my why time moves slow, trouble always occurs

Three minutes  
Defeat the enemy, no excuses, expose it all  
Legend says  
The materials are imported, put it on and get moving  
Take me to the endpoint  
Kill the risks, keep the vibes  
Release the tornado, it all goes to zero and we repeat bitch

Atlanta flow is not difficult for me  
Humming out a hook is just a small case  
Now you know why we have no time for hoes  
Why are you slower than me, my freestyle can challenge your favorite jams  
I represent Tiandi Clan, got a brain full of the most advanced tech  
Come try it out, it's not easy to get on our level  
I don't just want rings, I want to be a MVP just like a 20 year old Kobe
