Earthbound Spirit

Highland Glory

Waking up from a dream This is not what it seemed Can you tell me the state that I'm in? Is it all in my head? Am I alive, am I dead? I am caught here somewhere in between

All my life I've wondered Where do we go? Maybe there's more to this life?

Lead me into the light Be my guide Through the passage to the other side What's behind? May I find peace of mind? Lost and alone On my own As I enter the gates where I'll go Into the unknown Earthbound spirit

Suddenly I was gone I had so much left undone Few are fortunate enough to bid farewell Always afraid our lives would part All my life it hurt inside my heart What the future holds we never can tell

All my life I've wondered Where do we go? Maybe there's more to this life?

Lead me into the light Be my guide Through the passage to the other side What's behind? May I find peace of mind? Lost and alone On my own As I enter the gates where I'll go Into the unknown Earthbound spirit

"I can see you, I can hear you Can you feel my presence here? I try to reach you, try to get through Need to tell you how I feel..."

All my life I've wondered Where do we go? Maybe there's more to this life?

Lead me into the light Be my guide Through the passage to the other side What's behind? May I find peace of mind? Lost and alone On my own As I enter the gates where I'll go Into the unknown Earthbound spirit

Earthbound spirit Earthbound spirit...
