It's a star twinkling, beautiful night
I hope this night lasts forever, hold my hand
The blue moonlight makes this a beautiful night
Walk across that sky with me

I'm yours - only you
Can make my heart race - I'm outta control
I'm yours, nobody,
Nobody can take your place
You drive me crazy

Left and right,
You shake me up on this disco night
From top to bottom,
From front and back, you flip my heart inside out
You are like cotton candy, I never get sick of you
Before this night is all over, let's love all night

I still don't really know love -
The moment I first saw you
I felt a strong wave washing over me
Drenching my heart
To the deepest corners
Oh oh oh oh Girl

It's a star twinkling, beautiful night
I hope this night lasts forever, hold my hand

The blue moonlight makes this a beautiful night
Walk across that sky with me

I'm yours - only you
Can make my heart race - I'm outta control
I'm yours, nobody,
Nobody can take your place
You drive me crazy

Something good Nothing better
Just like a limitless credit card
I strengthlessly fall for you,
But this feeling isn't so bad girl
With one cue, I'll go inside you, without you knowing
You will keep thinking of me,
Let's meet in our dreams, I'm waiting for you

I still don't really know love
Whenever I stood in front of you
I felt a strong wave washing over me
Drenching my heart
To the deepest corners
Oh oh oh oh Girl

It's a star twinkling, beautiful night
I hope this night lasts forever, hold my hand
The blue moonlight makes this a beautiful night
Walk across that sky with me

I'm yours - only you
Can make my heart race - I'm outta control
I'm yours, nobody,
Nobody can take your place
You drive me crazy

I just wanna love you all night long
I want to fall asleep in your arms tonight

I'm yours - only you
Can make my heart race - I'm outta control
I'm yours, nobody,
Nobody can take your place
You drive me crazy

It's a star twinkling, beautiful night
I hope this night lasts forever, hold my hand
The blue moonlight makes this a beautiful night
Walk across that sky with me

It's a star twinkling beautiful night
