Free up some time
We can't just let this night go
It's the moment our beginning had sparked
It's still hot, I'm about to go crazy
Eh ya, eh ya, I feel alive

Since 2009 1 0 1 6
Round and round, till we came here
Today, it's our anniversary
Oh baby, let's get loco

Pop that bottle bottle, trembling right
Congrats, congrats, let's go to space!
Shivers all down my body, rejections are a no no
So we gon' celebrate

Tonight, never forgot about this moment
I'll give you all my heart
Alright, this day will come again
Let's be together and promise, we gon' celebrate
We gon' celebrate

I like the look you're giving me
It's the only light to my long day
You're the energy that makes me never stop
If I can pick one thing forever, it's you
Cause you are my everything

Days that passed at the blink of an eye
It came back today
I never forget, always
With your wings, I fly high

Pop that bottle bottle, trembling right
Congrats, congrats, let's go to space!
Shivers all down my body, rejections are a no no
So we gon' celebrate

Tonight, never forgot about this moment
I'll give you all my heart
Alright, this day will come again
Let's be together and promise, we gon' celebrate
We gon' celebrate

Always I'm feeling you, even if I can't see you
I can always feel you
I hope all my steps that I take
Will take me to you

We gon' celebrate
We gon' celebrate

We gon' celebrate, there's no end tonight
Keep partying partying
It's a good day

We gon' celebrate, there's no end tonight
Keep partying partying
It's so crazy
