Take on me now

Times without you
Have absolutely no meaning to me
Every day, I imagine
A world with only us two

From that place, nobody can touch
It's only ours, all day
Forever swimming inside
I hope I can dream with you

Let's escape the world
That tries to separate us
Let's runaway, runaway
Run away from this place with me oh baby

Tell me you love me
If you want me
If you feel the same way
Hold my hand and close your eyes
Shh, take on me

Take me away
To a place with no one else
I just wanna love
Look at me
Even if I'm trapped in your eyes forever
I'll there for you my love

Take on me now
Take on me now

This world is too complicated
I can't concentrate on only looking at you
I need a white canvas
I wanna take my heart and sketch you out

It's too dark here, it doesn't suit the colorful you

It's too dirty for you, who is untainted
It just has to be us two, don't need anything else
Let's go, wherever we go, it's a heavenly break

Let's escape the world
That tries to separate us
Let's runaway, runaway
Run away from this place with me oh baby

Tell me you love me
If you want me
If you feel the same way
Hold my hand and close your eyes
Shh, take on me

Take me away
To a place with no one else
I just wanna love
Look at me
Even if I'm trapped in your eyes forever
I'll there for you my love

Take on me now
Take on me now

When your eyes on me
When you lean on me
Oh I feel like I got everything
I love you with all my heart
I hope we'll never change

Take on me now
To a place where it's just us two
Take on me now
Take on me now
