00 00 0000

I'm fine with waiting, I'm fine with you not wanting to look at me
Just stay next to me
I'm fine with you cursing, I'm fine with you hurting me
I, I will do better.

I will hold it in even if you hate me
Even if you keep pushing me away
Don't leave me
Don't get a new man
I will bear everything for you

You are my virus
You will make it harder on me
When I look at you again
My heart will hurt

But still I want you
Even if I'm in pain after pain
Even if I might lose everything

You are my virus
You will make it painful for me
I want you again and again
I crazily want you
I love you so much
Even if I'm in pain after pain
I love you until the day I day

Leave to me girl
Take me with you
Leaving that black wall behind
Let's head towards that dusk
Remove that curtain covering the space between you and I
Even though it's so hot that I might burn
I will still jump in so that you won't have to do anything
Slowly, little by little, I will blend in

I will hold it in even if you hate me
Even if you keep pushing me away
Don't leave me
Don't get a new man
I will love you a little more

You are my virus
You will make it harder on me
When I look at you again
My heart will hurt
But still I want you
Even if I'm in pain after pain
Even if I might lose everything

You are my virus
You will make it painful for me
I want you again and again
I crazily want you
I love you so much
Even if I'm in pain after pain
I love you until the day I day

Even if it hurts this much, I love you
Watching you I wait again

It might not be the love that is beautiful
It might not be the love that is blessed
But if I can reach you, I'm satisfied
(Just loving you) I'm satisfied with just that

You are my virus
You will make it harder on me
When I look at you again
My heart will hurt
But still I want you
Even if I'm in pain after pain
Even if I might lose everything

You are my virus
You will make it painful for me
I want you again and again
I crazily want you

I love you so much
Even if I'm in pain after pain
I love you until the day I day

(You are my virus)
