Have you thought through the words you just spit out?  
Do you know that you can't turn things back easily?

I hate that you  
Look sorry and sad  
This might be our last time so please smile

Rather than me without you,  
You without me makes me more worried  
Because you're not good at doing things on your own

Will you be alright? Even if I'm not by your side?  
You get lonely so easily so even if you're alone

Will you be alright? Without a person to argue with  
Without a person to joke around and laugh with  
If it's okay with you

Think of it twice, think it through again  
(If you leave me) Will you really  
Be alright without me?  
Because you're clumsy at everything without me  
Because the you that I know is like a child

Where are you going? Why you wanna go?  
Where are you going? Oh, oh why do you want to go?  
In the end, you start to cry,  
What am I supposed to do now?  
How can I let you go? You are going to fall apart

Rather than me without you,  
You without me makes me more worried  
Because you're not good at doing things on your own

Will you be alright? Even if I'm not by your side?  
You get lonely so easily so even if you're alone

Will you be alright? Without a person to argue with  
Without a person to joke around and laugh with  
If it's okay with you

It's okay for you to be a bit selfish  
Even after you leave me,  
Until it stops being hard  
You can stay near me

Stay with me baby, stay with me baby  
Don't go, don't leave me baby, take ma hand  
Stay with me baby, stay with me baby  
Don't go, don't leave me baby

Will you be alright? Even if I'm not by your side?  
You get lonely so easily  
So even if you're alone

Will you be alright? Without a person to argue with  
Without a person to joke around and laugh with  
If it's okay with you
