I never wanted to admit it
I never thought we would end it like this
But I gotta say, I still love you

I don't remember what i did that day
I was waiting for your call until i can't do anything else
Both of my eyes wanted to see you
Your face is still clearly seen in my heart

Friends who don't know we broke
Still smile and ask about your news
Farewell speeches are still too strange for me
I can't say anything

Yet I still haven't learn to say goodbye
I still don't know how sadness feels like
I still don't get the fact that you left my side
I still don't believe it Tears doesn't seem to fall

Yet Listening to farewell song (farewell song ~)
I won't cry it is all a lie
Yet I feel a little bit
Tears in my eyes started to drop

(Oh shawty) I want to go back
To the smiling picture
(Sad story) My heart is empty,
Only tears keep me accompany Oh shit
The moment you turn away
I fall in love with your back
Falling love spaceship

Missing you for the whole day
Without you by my side, i can't do anything else
I want to hold you back
Because if it's not you, I can't love another

Looking at you I remember your smiling face
Even if I miss you, but I still can't see you
I took your presence and love for granted
That is why you are leaving me

Yet I still haven't learn to say goodbye
I still don't know how sadness feels like
I still don't get the fact that you left my side
I still don't believe it Tears doesn't seem to fall

Yet Listening to farewell song (farewell song ~)
I won't cry it is all a lie
Yet I feel a little bit
Tears in my eyes started to drop

I didn't know I will be this hurt yeah ~ I never know
I should have know your heart longer, yeah, no no
If only time would allow me to go back to the past
I won't let go both of your hands I won't let you go

Yet I still haven't learn to say goodbye
I still don't know how sadness feels like
I still don't get the fact that you left my side
I still don't believe it Tears doesn't seem to fall

Yet Listening to farewell song (farewell song ~)
I won't cry it is all a lie
Yet I feel a little bit
Tears in my eyes started to drop
