Woo baby, what are you doing tomorrow?
You're resting? I am working though
Why are you meeting your friends?
How about just resting at home

Why aren't you listening to me,
Why are you making me mad
I'm being like this because I get worried
When you're not with me yeah

Okay then go out but
Come back early (come back)
Be good so I don't have to be nervous
Wait, can't you just stay home?
Can't you just wait one day?
Oh baby, why don't you know my heart?

Today is the day you rest -
For some reason, I'm nervous and it's annoying
I wish you were busy instead baby
When you rest, everything feels heavier to me
I can't seem to grasp the work that is stacked on my desk

Today is the day you rest -
My mind keeps going to you,
As if I have a child near water
Because anyone can see you're so beautiful,
What if someone starts talking to you?
Do you know that I'm feeling like this?
Or are you doing this on purpose?
I wish I could carry you around in my pocket like a cellphone,
Everywhere I go

Okay then go out but
Come back early (come back)
Be good so I don't have to be nervous
Wait, can't you just stay home?
Can't you just wait one day?
Oh baby, why don't you know my heart?

Today is the day you rest -
For some reason, I'm nervous and it's annoying
I wish you were busy instead baby
When you rest, everything feels heavier to me
I can't seem to grasp the work that is stacked on my desk

I keep getting worried about you
So I can't do anything
Who are you meeting,
Where are you and what are you doing?

You may feel pressured because I'm like this but
I hate being apart from you even for a moment

Today is the day you rest -
For some reason, I'm nervous and it's annoying
I wish you were busy instead baby
When you rest, everything feels heavier to me
I can't seem to grasp the work that is stacked on my desk
