

## Arcade Warriors

Highlord

Have you ever felt that chill  
Running through your spine?  
There's no turnin' back  
The quest has begun  
Push the limit, break the chain  
Test your will or die!  
Unmask yourself, become player one

The game is over before it starts  
No place for losers it's time to go  
There is no way I'm gonna lose the game tonight  
I'm gonna beat 'em, shoot 'em up till the ending lines

Arcade warriors! Always ready to join the fight  
Arcade warriors! Even if the end is nigh  
Arcade warriors! Until victory is at hand  
Arcade warriors! To the end and further on  
Not knowing what is next, that's what boosts my life!

Always lookin' for a way to cheat death  
Got my nerves on the edge, I'm stuck with no escape

Swear and beat my beast like Kong 64

The game is over...

Arcade warriors!...

All this time, lost in a fable game  
Joining the tribe, and living such a half life  
Street fight, it sounds fine  
Kind of a legacy, visions of an old creed  
Welcome to my place, welcome to the arcade  
Up to the final stage, waiting for the special move  
Suit up, rush into action  
Insert coin and eat my dust!
