

## Warmight

Highlord

Father, father, why are they attacking us?  
There needn't be a reason why  
We'll fight back without a cause

Father, father who is attacking us?  
There needn't be a name or face  
Wanna do well? Give 'em hell

Man is wolf to men  
Who are wolves to other men  
Who are less wolves than they are  
Hatred is disease, retaliation is the cure

War is meaningless  
If we have no enemies to fight  
If the enemy and war are inside our heads  
What is the reason why we display our warmight?

It's a me against you  
Against him who is against  
Who knows who world  
War can be a blitz  
Ignorance is bliss  
But arrogance will never stop being so chic

Father, father, will they keep on coming back?  
If you want a safe peace  
Keep on fighting 'till they're wrecked

Father, father, is this all right or wrong?  
If your flag waves in the end  
Your name will be sung in a song  
War is meaningless  
If we have no enemies to fight  
If the front and defence lines are inside our heads  
What is the reason why we display our warmight?  
War is a business in itself
