

Alien Spaceship

Highly Suspect

I went up, to the alien spaceship
And I felt pale, with my very hands
There was no time for verification
For all the information

You would not believe
The crazy things they told me, oh no no no
You would not believe
The crazy things they told me, woah no no

I came down, from the alien spaceship
And I tried to forget
All the implications
Cause I feel so weird, every time I try to explain
My alien experience

You would not believe
The crazy things the told me, woah no no no
You would not believe
The crazy things they told me, woah no no

I went up, to another alien spaceship
And they told me, so many misdirections
There's not much time to make corrections
To the great big complications, woah no no

Well, I want you to believe
I want you to believe, yeah oh
I want you to believe
I want you to believe yeah yeah yeah

I want you to believe
I want you to believe, yeah oh
I want you to believe
I want you to believe yeah
Oh, I want you to believe it
I want you to believe it
I want you to believe it
I want you to believe, yeah, yeah, yeah
Oh, I want you to believe
I want you to believe
