Highly Suspect

All I have ever wanted
Is that I am never alone
I'm just trying to find my way home, yeah
I'm just trying to find my way home

Won't you take me far away from here
Wrap me up, help me disappear
Each and every single year
I gain more love, and I lose my fear
Won't you take me far away from here
Wrap me up, help me disappear
Cause each and every single year
I gain more love, and I lose my fear

She floats in outer space
Without a fate
I'd rather know now
I'm gonna jump so high
Right on through the sky
With an incredible sinker down

Won't you take me far away from here
Wrap me up, help me disappear
Each and every single year
I gain more love, and I lose my fear
Won't you take me far away from here
Wrap me up, help me disappear
Cause each and every single year
I gain more love, and I lose my fear
