

Pink Lullabye

Highly Suspect

I don't know, my mind goes blank
Almost done yet?

From the bottom of my heart
The ocean's floor
Donde mi querida Mariana
(Patiently waits)
Espera mi amor
Do you really believe it?
Are you buying the lies?
Do you wanna live?
Do you wanna die?

Shut up, move
Shut up, move
Move, move, move, move
Shut up, move
Shut up, move
Shut up, move
Shut up, move

Living is easy
If death is the cure
I gave you the secret
So take it, it's yours
I wanna transcend
I wanna be zen
I wanna be under the water away from you fuckheads with all of my friends
The world is a nightmare
But I have a dream
Particle beam
The water is rising
There's blood in the tide
Do you wanna live?
Do you wanna die?

Shut up, move
Shut up, move
Move, move, move, move
Shut up, move
Shut up, move
Shut up, move
Shut up, move

And nothing's ever certain
Except for my curtains
Block all the light from the sky
The only moments that matter will pass you by
In the blink of a pink lullaby
And I cry, so fucking what?
Cause I try to remember the love that we had
When I do I get sad and I'm stuck
I wanna feel happy
I deserve the chance
Or maybe I blew it
It's the death of romance

Shut up, move
Shut up, move
Shut up, move
Shut up, move
Shut up, move
Shut up, move
Shut up, move
Shut up, move
Shut up, move
Shut up, move
Shut up, move
Shut up, move
Shut up, move
Shut up, move
Shut up, move
Shut up, move
