

Round and Round

Highly Suspect

I woke
In the morning
On the couch
And I walked
Home from my
Neighbor's house

Though I knew
That the sun
Would return, soon
When she left
She didn't say
G'dbye
She just goes

Easily round and round
Easily round and round
She goes

It gets hard
Once you've known
Someday (Someday)
Someday, yes

And now you know
That's got your soul
Your soul
There ain't no use
Hiding out
You just let go
Lose control

And I can't wait
To get back
To my place
Where I was one
Before I was born

Easily round and round
Easily round and round
She goes
Easily round and round
She goes
Til I was put before I was born
