

There Goes My Love

Highway 101

There goes the one I used to know
There goes the one that I love so
There go the arms that used to hold me tight
There goes the reason that I sigh
There goes the reason that I cry
There go the lips I used to kiss goodnight
There goes my love

You're the first love of my life
And you might be my last
I don't want to be another memory in your past

There goes the one I used to know
There goes the one that I love so
There go the arms that used to hold me tight
There goes the reason that I sigh
There goes the reason that I cry
There go the lips I used to kiss goodnight
There goes my love

I've got a feelin' for you, dear
It's with me night and day
Just because we're far apart
Don't make it go away

There goes the one I used to know
There goes the one that I love so
There go the arms that used to hold me tight
There goes the reason that I sigh
There goes the reason that I cry
There go the lips I used to kiss goodnight
There goes my love
