

Future Tripping

Hilary Duff

Kiss me on the lips
With your eyes open-ish
And that's enough to send me off
On a future trip
Are we having enough sex?
Are there exes you miss?
And do I nail you to a cross
On some bogus shit?

I'm not dying
But I'm dying

I'm worried about
Shit that hasn't happened
Entertaining every doubt
Oh, here I go again
Future tripping out
Spiraling around and around
Can you keep me on the ground?
Honey, I need help
Sunset and Doheny
Doing laps around the house
Oh, here I go again
Future tripping out
Oh, the future's tripping me out
Can you keep me on the ground?

2028
Will you skip the headache
And settle somewhere out of state
With a younger heart?
Will your crisis be a car
Or some bitch at a bar
Who's singin' she loves Bon Iver?
Calls him Bon Ivar (Ha-ha)

I'm not dying (I'm not dying, I'm not dying)
But I'm dying (I'm not dying, I'm not dying)

I'm worried about
Shit that hasn't happened
Entertaining every doubt
Oh, here I go again
Future tripping out
Spiraling around and around
Can you keep me on the ground?
Honey, I need help
Sunset and Doheny
Doing laps around the house
Oh, here I go again
Future tripping out
Oh, the future's tripping me out
Can you keep me on the ground?

I'm a victim of prediction
Obviously shouldn't leave my couch
Future tripping out

Frozen in tomorrow vision
Here today but kinda missing out
Future tripping out

I'm not dying
No, I'm not dying
I'm not dying, no
But I'm dying

I'm worried about
Shit that hasn't happened
Entertaining every doubt
Oh, here I go again
Future tripping out
Spiraling around and around
Can you keep me on the ground?
Honey, I need help
Sunset and Doheny
Doing laps around the house
Oh, here I go again
Future tripping out
Oh, the future's tripping me out (Future's tripping me out)
Can you keep me on the ground? (Future's tripping me out)

I'm a victim of prediction
Obviously shouldn't leave my couch
Future tripping out
Frozen in tomorrow vision
Here today but kinda missing out
Future tripping out
