

# Nothing Like Your Love

Hillsong United

Love unchanging  
God Your mercy never fades and I'm surrounded  
By Your compassion and Your grace

Your love brighter than the sun  
More beautiful than words could ever say  
This endless light shining over all  
It leads me to Your glory everlasting

In Your kindness  
For the broken and the lost  
You gave Your only son to bear my shame upon the cross

Your love brighter than the sun  
More beautiful than words could ever say  
This endless light shining over all  
It leads me to Your glory everlasting

Your love amazing  
Fills my heart and I sing out  
There is none like You  
There is nothing like Your love
