

Live & Let Go

Hilltop Hoods

Hmmmmmm, ohhhhhhhhhh

All these days I've been broken and hopeless
And I, and I don't feel like I'm coping, I'm hoping
That I, that I can live and let go
So I can get through it
Yeah, I can live and let go
So I can get through this

You know that pain can
Hang in the air like cigarette smoke, right?
Sometimes trying to live and let go
Still trying to talk with a mouth full of cinnamon though
I'm trying to crawl out the skin I'm in so
I can see through the eyes of a loved one, eyes of an enemy
Rising above sometimes takes a pedigree
That I fear that I don't possess
And turns hope into hopelessness
But I won't regress
Won't let life wear me down
Staring down as the travelers all rush past
Some part their weary brow
And wear a frown like a handlebar moustache
So I live by forgive and forget
Rather than to live with regret
It's like living with debt
It's a weight that'll curve your spine
Living with hurt is like serving time

All these days I've been broken and hopeless
And I, and I don't feel like I'm coping, I'm hoping
That I, that I can live and let go
So I can get through it
Yeah, I can live and let go
So I can get through this
All these days I've been

I pay homage to obstacles
Thin line between honour and horrible
The healing heart knows the eyes must overflow
Tears clear the windows that guard the soul
Now that the water flow, you can scrub the mud out of your land
The blood out of your hands
But you still gotta cleanse the heart that's trying to beat inside
And it's only purified by the tears you cry
You can fight all the devils and slay them
But if you're made hard at the days end then they win
There's only one force that can solve all this
I want the warm heart that we all start with
Sometimes we march out, ball our fists
I will give it all up for my softness
You will never invade my Holy place
I let the tears dry on my face

All these days I've been broken and hopeless
And I, and I don't feel like I'm coping, I'm hoping
That I, that I can live and let go
So I can get through it

Yeah, I can live and let go
So I can get through this

If these walls could talk they'd sing a sombre song
And if we're stronger from this road that goes on and on
We wear scarring like armour made of problems from
Void of feeling, time ticking, sitting on a bomb
So disengaged, hope in us fades
Reaching out but the dark taking focus away
This road's paved by the brave without knowing the way
Don't stray bro, they didn't build Rome in a day
And I don't need to satisfy a ceaseless appetite
Just to feel at peace or gratified
If we don't reach for the stars, only reach for satellite
We'll live in faded colour, we dream in black and white
I know our demons walk among us
The struggle's something that we do, not something to become us
So let go of all the suffering and hurt
Yo, unless we ball it up and we burst

So I can get through this, so I can get through this
So I can get through this, so I can get through this

Yeah, all these days I've been broken and hopeless
And I, and I don't feel like I'm coping, and I'm hoping
That I, that I can live and let go
So I can get through it
So I can live and let go
So I can get through this
So I can get through this, so I can get through this
So I can get through this, so I can get through this
So I can live and let go
So I can get through this
So I can live and let go
So I can get through this
