

Cave Paintings

HIMALAYAS

Back then before I died
Before I went to hide
Before you were older than I

My shadow came alive
Stepped on my face all night
And told me that everything's alright

Now we're not the same as we were
But the parts that we hate still haunt us
I'm starting to think the change is worse
We ended up last, 'cause we put ourselves first

Come closer I won't bite
I say but I probably might
Just to see if you can fight

My picture's on the wall
Tried telling me it's war
I took no notice at all

Now we're not the same as we were
But the parts that we hate still haunt us
I'm starting to think the change is worse
We ended up last, when we put ourselves first

(My shadow came alive)
(My shadow came alive)
(My shadow came alive)
(My shadow)

My shadow came alive
Stepped on my face all night
I took no notice at all

Now we're not the same as we were
But the parts that we hate still haunt us
I'm starting to think the change is worse
Now we ended up last, 'cause we put ourselves first

I'm starting to think the change is worse
