

Darkest Before The Dawn

HIMALAYAS

Feel the shivers down your spine
Let the wind blow through your mind
Watch the dust leave you behind
And hold on for one last time

There's no time, anymore
Turn our backs on all we won
We can try for it all
To be better than we once were

And I can't see past the dawn
You know I can't do this on my own
Nowhere to turn
We fall through the floor
'Cause it's always darkest before the dawn

Walk ahead, never look below
Grab a hold and don't let go
All alone out in the cold
And our fates will soon be known

There's no time, anymore
Turn our backs on all we won
We can try for it all
To be better than we once were

And I can't see past the dawn
You know I can't do this on my own
Nowhere to turn
We fall through the floor
'Cause it's always darkest before the dawn

And I can't see past the dark
You know I can do this on my own
Nowhere to turn
We fall through the floor
'Cause it's always darkest before the dawn

It's always darkest before the dawn
It's always darkest before the dawn
It's always darkest before the dawn
It's always darkest before the dawn
It's always darkest, it's always darkest
It's always darkest before the dawn
