

## From Hell To Here

HIMALAYAS

Dragged through the mud  
And take anything just to kill the pain  
Wake up  
And pray to God that you'll wake up again

Left alone with all you fear  
How did we get from Hell to here?

And now I don't wanna sleep  
I hear voices calling me  
And now I don't wanna sleep  
I hear voices

Sent to the depths  
And from the dark, you hear them call your name  
Wake up  
And pray to God that you'll wake up again

Left alone with all you fear  
How did we get from Hell to here?

And now I don't wanna sleep  
I hear voices calling me  
And now I don't wanna sleep  
I hear voices calling me

And now I don't wanna sleep  
I hear voices calling me  
And now I don't wanna sleep  
I hear voices calling me  
And now I don't wanna sleep  
I hear voices calling me  
And now I don't wanna sleep  
I hear voices calling me

And pray to God that you'll wake up again  
How did we get from Hell to here?  
Pray to God that you'll wake up again  
How did we get from Hell to here?
