

Hung Up

HIMALAYAS

Reach out for a broken branch
Sink beneath the silence
Follow deep with no relent
Back here to the end again

As shadows crawl
And fall on the floor
We've been here in nightmares before

Hung up crawling through this cold love
So long, broken by all we've become

Cracked after a fall from grace
Tied up in a timeless place
Hold out for a life to spend
Back here to the end again

As shadows crawl
And fall on the floor
We've been here in nightmares before
Fading back
To nothing and more
We fall to a nightmare unsure

Hung up crawling through this cold love
So long, broken by all we've become

Hung up crawling through this cold love
So long, broken by all we've become
Broken by all we've become
All we've become
Broken by all we've become
