

Will We Make It?

HIMALAYAS

Now that your secrets are all out
There's no way that you should let me down

And cards on the table, not close to your chest
Let's bury the past and hope for the best

If I chance would you take it?
If we give this our all will we make it?
If I chance would you take it?
If we give this our all will we make it?

I'm starting to need you, like a hole in the head
There's no way to turn back, just the end

And cards on the table, not close to your chest
Let's bury the past and hope for the best

If I chance would you take it?
If we give this our all will we make it?
If I chance would you take it?
If we give this our all will we make it?

We made mistakes right from the start
We broke each other, fell apart
Right place at the wrong time
But I wish you were still mine
We made mistakes right from the start
We broke each other, fell apart
Wrong place at the wrong time
But I wish you were still mine

If I chance would you take it?
If we give this our all will we make it?
If I chance would you take it?
If we give this our all will we make it?

Will we make it?
Make it?

Will we make it?
Make it?

Will we make it?
Make it?
