

I Need Another Drink

Hinder

I'm drunk in the morning stumbling feet
Ain't got motivation but I don't want to sleep
So no woah woah I need another drink

This chip on my shoulder is covered up with ink
To hell with your judgement I got lower class dreams
So no woah woah I need another drink

There's nobody left for me or you sit around and criticize ever
ything
You can't tell me what to think and do I'll tell you what I wan
t and what I need
So woah waoh woah I need another drink

Woah woah woah...

Listen
Reality's creeping only one way to make you seek
They tell me I'm crazy but I don't another shrink
So no woah waoh I need another drink

Opinions are flying circling me
Everyone's got one you can take yours and leave
So no woah woah I need another drink

I don't care what the fuck you think
There's nobody left for me or you sit around and criticize ever
ything
You can't tell me what to think and do I'll tell you what I wan
t and what I need
So woah waoh woah I need another drink

Know what I think
You make me sick it's so easy to hate you
You make me sick it's so easy to hate you
You make me sick it's so easy to hate you

You make me sick

There's nobody left for me or you sit around and criticize ever
ything
You can't tell me what to think and do I'll tell you what I wan
t and what I need
So woah waoh woah I need another drink

I need another drink
I need another drink

You know what I need woah woah woah I need another drink
